| <b>Web Technologies:</b>         | HTML, CSS,                                              |

## Projects

1. **Front Office Team Portal for Managing Student Enquiries**
  - **Technologies:** Java, HTML, Thyme leaf

- **Description:**  
Developed a web-based portal to efficiently manage and track student inquiries, reducing manual effort and improving response times. The portal streamlined communication between students and the front office team by providing a centralized platform for inquiry submission and tracking.

## 2. Vendor Information System for Shipping

- **Technologies:** Java, HTML, CSS
- **Description:**  
Designed and implemented a system to manage vendor information for shipping operations, enhancing data organization and retrieval efficiency.
